

PATIENT QUESTIONNAIRES: TRACK YOUR PROGRESS AND SATISFACTION

Surgery is complete. Welcome back for your post-operative appointment.

Part of your comprehensive care is ensuring that we provide you with a high quality experience. Please complete the post-operative (after surgery) questionnaires that will be sent over the next few weeks and months. These questionnaires will be sent to you via email or text message from OBERD, or you may complete them online at BoneAndJointTN.org/quality-and-outcomes.

BENEFITS OF COMPLETING THE POST-OPERATIVE QUESTIONNAIRES

INDIVIDUALIZED PATIENT IMPROVEMENT

By completing your post-op questionnaires, your physicians can monitor your progress from pre-op through each phase of recovery.

OPTIMIZED TREATMENT PLANS

We evaluate your physical function, mental health, pain, and satisfaction to that ensure your individualized treatment plan is right for you.

IMPROVE OVERALL EXPERIENCE

Completing your post-op questionnaires online lets you rate your symptoms and current status so your concerns can be addressed at upcoming appointments.

PATIENT QUESTIONNAIRES: TRACK YOUR PROGRESS AND SATISFACTION

How do I complete the questionnaires?

- If you provided an email address or cell phone number to Bone and Joint Institute, you will receive an email or text from OBERD with a link to the questionnaire. You will receive a total of five questionnaires, both before and after surgery, at a frequency of one pre-operatively and four post-operatively – three months post, six months post, one year post, and two years post.
- If you did not receive a link to the questionnaires, go to BoneAndJointTN.org/quality-and-outcomes. Begin by entering your personal information. After you log in, you will be able to access the questionnaires. Click the "START" button next to the questionnaire to begin.

If you log in and do not see a questionnaire to complete, your physician is up-to-date on your current health status and there is no action required at this time.
